## EDUCATION

---

### Bennett University

*Bachelor Of Technology in Computer Science (Specialization in Artificial Intelligence)*

Greater Noida, UP

Aug 2023 – May 2027

- Cumulative GPA : **7.75/10.0**
- Relevant Coursework: Data Structures and Algorithms, Artificial Intelligence, Machine Learning, Probability and Statistics, Database Management System, Operating System, Computer Networks, Computer Architecture

## TECHNICAL PROJECTS

---

**Sprout Circle - Smart Daycare Management App** | React, Typescript, Tailwind CSS, SQL, Firebase, node.js

May 2025

**Role:** Frontend Lead Developer

- Led frontend development for an innovative daycare management solution serving children from infancy to 13 years.
- Features secure multi-role authentication for parents, teachers, and administrators, interactive educational games to engage children, a 24/7 AI chatbot for instant support, real-time GPS tracking for school buses, live photo updates from classrooms, integrated payment gateways for tuition, and comprehensive progress reporting for child development.
- This project significantly streamlined daycare operations and enhanced communication between staff and parents.

**Heart Sound AI - Heart Disease Detection** | LSTM, Librosa(Lib), CNN, GRU

Feb 2025

**Role:** AI/ML Engineer + Front-End

- Expert-level deep learning project that predicts heart conditions by analyzing heartbeat audio files (.wav/.mp3) with 100% test accuracy.
- Uses CNNs and LSTM/GRU networks with PhysioNet datasets, advanced audio preprocessing, MFCC feature extraction, and real-time visualization dashboard with confidence scores and educational content.

**Portfolio Website** - React

June 2025

- Developed and deployed a responsive portfolio website using React.js and Tailwind CSS, ensuring a sleek and modern UI. Implemented Framer Motion for smooth animations, enhancing user experience with dynamic transitions.
- Utilized JSON for structured data management, enabling easy content updates. Hosted on Vercel for fast and reliable performance. The portfolio showcases projects, skills, and experience, providing an engaging way to present my work.

## TECHNICAL SKILLS

---

- **Programming Languages:** Python, C++, SQL, HTML/CSS
- **Frameworks:** TensorFlow, PyTorch, Scikit-learn, Keras
- **Databases/Tools:** MongoDB, MySQL, Git/Github

## CERTIFICATES

---

- [MICROSOFT POWER BI DATA ANALYST](#)
- [SQL FOR DATA SCIENCE](#)
- [OPERATING SYSTEMS AND YOU: BECOMING A POWER](#)
- [Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning](#)
